GERMAN CBUELTY. Brutal Record of Officials in Zanzibar-Baro iodena's Administration Attacked. BERLIN, Feb. 17 .- Eugene Wolff, the newspaper correspondent whose reports to the Tageblatt on the disaster to the Zelewski expedition and other matters caused Chanceller Von Caprivi to order his expulsion from German East Africa in November last, has published an amplified attack on Baron Sodena's administrathe governorship of East African' colony. It will be remembered that about the middle of September last word was received that in the then recent fight between the German corps under Captain Zelewski and a body of natives, 300 of Captain Zelewski's blacks were killed and all the guns and munitions were lost. Besides Captain Zelewski's officers, Zetewtiz and Pierch, Dr. Bunschow and four non-commissioned officers were reported missing. Wolff now declares that no reports on the actual losses in the last two fights with the natives have ever been published. Nor, he adds, has the fact ever been announced that an English caravan had been plundered. Wolff says that all the officers of experience in East Africa have either been dismissed from the service or have resigned in disgust and that the Sodena regime has destroyed public confidence and stopped progress and is bound to end in disaster. Wolff's article will form the subject of an interpellation in the Reichstag. Dr. Marseille, the medical adviser of the Sultan of Zanzibar, gave, two years ago, details with regard to the causes of trouble in East Africa and how the Germans acted toward the natives. He said that the at-tempts at establishing plantations made by the German company in the vast territory ceded by the Sultan were never serious, as they were limited to the construction of some buts

which were called stations and the planting of some bits of ground with tobacco. In the meantime the Germans led at Zanzibar a luxurious life, and the greater part of the money was spent in champagne. For the administration of this territory which they had obtained from the Suitan, they had engaged to pay to the Sultan an annual sum of 200,600 rupees; but their chief object was the receiving of the customsduties, as trade was then very flourishing and the customs gave an enormous return. The contract, however, was drawn | male inhabitants became involved in s up in such a way that the 300,000 rupees never had to be paid, the Sultan being made their debtor for the opening of ways of communication and for other improve-The convention came into operation o the 14th of August, and within two months from date the Germans had spoiled everything. The Germans behaved with extreme brutality, and for the merest trifles shot down the natives with volvers. One of them boasted that

he had dispatched in this way three of the natives, who are of an extremly gentle nature. The Germans commenced by suppressing the flag of the Sultan, which was to float with the German flag on the custom-house, and even to have the chief position, s the Sultan remained sole proprietor of the territories administered by the Germans. The protests of the natives were met by acts of violence. At Pangani the Sultan's nag-staff was sawn asunder and burned. A rising ensued, and for its suppression the Germans, joining irony with insult, compelled the Sultan to send his own troops, under the pretense that it pertained to him, as sovereign of the country, to insure

GLADSTONIANS SCORED.

Mr. Balfour Ridicules Their Policy on Questions Affecting Ireland.

LONDON, Feb. 17 .- The Constitutional Club gave a banquet to-night in honor of Mr. Arthur J. Balfour, First Lord of the Treasury. Mr. Balfour, in a speech to a toast, said that to define their Irish policy the Gladstoniaus w o in a dilemma. They had made one set o promises to the English electors, and another to the Irish electors. The question was, who would be cheated? Who would be the dupes! Who believed that the general election would show that | fering with influenza, is now prostrated the patience of the English electors had with pneumonia. She was attacked with been exhausted. If the home-rule bill was carried the Irish members would be so many soldiers of fortune, supporting any ndue limits granted by the bill to an Irish Parliament. The Gladstonians brought no pressure upon the government to dis-solve Parliament. In fact, they dreaded nothing mo. han to return to power with a majority de ndent on the Irish party.

Irish Measures in the Commons. LONDON, Feb. 17 .- In the House of Commons to-day the hill introduced by Thomas J. Condon, member for East Tipperary, extending the municipal franchise in Ireland so that municipal authorities in that conntry will have powers similar to the same class of officials in England, passed its second reading. The government did not op-pose the measure. Thomas Sexton, member for West Belfast, in expressing regret for the absence of Mr. W. L. Jackson, Chief Secretary for Ireland, during the discussion of the first Irish bill of the session, said that Mr. Balfour's Irish local government bill would not be received without a ment bill would not be received without a contest when it is introduced to-morrow. He promised the government a lively fight.

Col. John P. Nolan, member for North Galway, then moved the second reading of the Irish laborers' bill. This measure proposes to authorize local bodies in Ireland to acquire, by compulsion, if necessary, allotments of land for the laboring classes; to provide for technical instruction and to insure that laborers' cottages shall be skillfully built of proper materials. Mr. Pierce Mahoney, member for North Meath, sec-onded Colonel Nolan's motion. The debate was continued till 5:40 P. M.

CAUSED HER CHILD'S DEATH. Daughter of Lord Robert Montagu Held for

Trial on the Charge of Murder.

Special to the Indianapotis Journal. BELFAST, Feb. 17 .- Mrs. Anna Margaret Montagu, daughter of Lord Robert Montagu, was committed for trial at Colerain, this evening, on the charge of causing the death of her three-year-old daughter, Mary Helen Montagu, and there seems to be a prospect that a lady of the Montagu family may meet death at the hangman's hands. The governess, it seems,

for some childish escapade, locked the lit-tle girl up in a dark room as a punishment, and then informed the mother. Mrs. Montaru, the mother, appears to have beduct that she resolved to punish her still more severely, and going to the dark room in which the child had been confined by the governess, Mrs. Montagn tied her daughter's arms behind her with some stout string, which cut deeply into the child's tender litand then not satisfied with this severe treatment she connected the end of this string about the child's arms to a ring in the wall, half stringing her up and half fastening her to the wall in order, apparently, to prevent her from moving about while she was under punishment. Several hours later the child was found choked to death.

All Her Anarchists. CADIZ, Feb. 17 .-- There are now in custody in this city 192 of the so-called Anarchists, who were arrested for participation in the disturbances that preceded and followed the executions of the four Anarchists at Xeres. They will all be tried by courtmartial at the beginning of March. The public prosecutor does not demand that any of the men be condemned to death, but he will ask that twelve of the ring-leaders be sentenced to penal servitude, and that forty others be sentenced to a term of solitary confinement. It is expected that the remaining 140 prisoners will be released after trial. The Anarchists do not seem to have the fear of the authorities before their eyes. A band of lawless characters, led by two brothers, have been causing some trouble of late in the vicinity of Cadiz, and the authorities determined to disperse them. A detachment of gen-darmes was dispatched in search of the band and broke it up, all those who escaped arrest fleeing to the Grazelama. For the time being they are safe from capture. Those who were taken prisoners by the gen-darmes were brought to Cadiz and lodged in jail

Mexico Doesn't Want Reciprocity. CITY OF MEXICO, Feb. 17 .- One of the most prominent personages in Mexico said recently that reciprocity with the United States was improbable. When asked his reason for this belief he replied that the negotiations had been suspended since the end of December on account of difficulties seems that the United States made attempts to secure exception from the duties, or at least a considerable reduction on American wheat, corn and flour. The McKinley law, however, offers Mexico no important concession, as only three articles enter the United States free -sugar, which is not exported from Mexico; coffee, which is salable advantageously in Europe, and hides, which are able to support a duty. It may safely be said that Mexico will not increase the concession made to the United States. The general public feeling is opposed to special com-mercial treaties, and there is now consider-able opposition because part of the American press has been attacking Mexico, it is claimed, unjustly.

Serious Election Riots in Japan. YOKOHAMA, Feb. 17 .- Dispatches received here from various places throughout Japan show that the elections for members of the House of Representatives have been attended with disturbances in many places. In Ogio, where, in common with the whole empire, political feeling ran high, all the general riot. The police were powerless to disperse the quarreling, fighting crowds, and though they several times charged the rioters, they were each time repulsed, and several of them were quite severely injured. A dispatch from Saga, where serious election riots were reported yesterday, state that several persons were killed in the fighting that then occurred. In conse-quence of the serious aspect of affairs at Saga the government has ordered that the election there be stopped.

Plots Against Leading Chillans. NEW YORK, Feb. 17 .- A Valparaiso cablegram to the Herald affirms that plots to kill both President Montt and General Canto have been discovered and thwarted. The attempt to take President Montt's life took place last Sunday night. The miscreants engaged in it removed the rails three kilometres north of Maule station. Their intention was to wreck the train which President Montt was announced to take. Fortunately he stopped off at Chil-anne. The rails were discovered by the railroad officials before any damage was

Fuel Tax Riot in Italy. ROME, Feb. 17.-As a protest against the impositions of a fuel tax the inhabitants of Polensea, a fortified town on the eastern declivity of the Apennines, invaded the town hall-in a body yesterday and proceeded to sack the building. They obtained possession of the archives, stowed away in the hall, and after starting a tire threw the documents into the flames and watched them burn until they had all been reduced to ashes. The authorities attempted to drive the rioters from the place, but the people made a determined resistance and a fierce and bloody fight resulted. During the course of the rioting one gen-darme was killed and another was badly wounded.

To Be Banished to Siberia. St. Petersburg, Feb. 17 .- General Fredericks, chief of the Warsaw police, has arrested at Dumbowa the son of the

famous patriot and historian, Joachim Lelewell, who was prominent in the Polish uprising in 1830, when the Russians were driven from Warsaw. General Frederick's prisoner was escorted by a strong military force from the place where he was arrested to Warsaw, whence he will be banished to Siberia. The charge made against him is kept a profound secret. There is much

mystery attached to the case. Army Recruits Driven to Suicide. BERLIN. Feb. 17 .- Six recruits of the Corps du Guarde, stationed at Potsdam, have committed suicide during the current month on account of the tyranny and harsh treatment to which they were subjected from non-commissioned officers. The frequency of such occurrences has aroused the officers to action, and investigation of the system which gives rise to them is in

Smith then shifted his position and knocked Kelly down four times. Three times the latter rose with great effort when nearly counted out, but a punch in the wind sent him down and out. It was some minutes before he fully recovered consciouspess. Both men's countenances are disfigured.

Five Men Burned by Molten Metal. PITTSBURG, Feb. 17 .- An explosion of nolten metal occurred at McConway, Torney & Co.'s foundry at noon to-day, terribly burning five men. Their names are: Patrick O'Brien, George Thomas, Josef Mofsk, Anton Sholiski and Anton Scitti. The explosion took place in the molding department and was caused by cold water dropping on the molten metal The concussion was terrific, shattering all the windows in the plant and frightening the workmen.

Mrs. J. G. Blaine, Jr., Ill. DEADWOOD, S. D., Feb. 17.-Mrs. James G. Blaine, jr., arrived here this morning and was at once driven to the hotel, where she is confined with nervous prostration. She suffered a hemorrhage of the lungs while on the train this morning, having left a sick-bed to attend the trial of her divorce case. The case will not be heard before

Saturday. Must Wait for Future Chances. St. Louis Globe-Democrat. It is the lawful right of every American citizen to aspird to the presidency, but the

only one who can get it this year is Benjamin Harrison, and the others might as well accept the situation and wait patiently for future chances.

The Democratic Pilot Is Sober. Detroit Tribune.

Even a Democratic pilot can sometimes see a reef before he runs the ship onto it, and some members of the ways and means committee are doing the best to keep the rotten bulk, Democrat House, from going to pieces on that sunken rock marked "free wool."

As It Should Be. The Epoch (Mug.)
The probability is that he (Harrison) will be nominated on the first ballot. This is as it should be; he is as safe a man as the Republican party has. He is sound to the core on the silver question, and that is son. The mistake came from the fact that | vastly important.

IMPORTANT IN SPRING.

Advice What People Should Take.

In the spring everybody begins to think of taking a spring medicine. Not only is this a very common practice, but a very necessary and healthful one. It is a fact which physicians acknowledge, and the people recognize generally, that a spring tonic taken during the months of March, April and May is absolutely necessary. In the spring there are great and important changes going on in the body. Perfect health cannot be maintained when the nerves are weak, the system clogged and the organs sluggish. There will be a weak, tired, languid and neryous condition, with sleepless and restless nights, a tired waking in the morning, no appetite for breakfast, a bad taste in the mouth. malaria, dull head, biliousness, constipation and

dispirited feeling. For such cases as these be sure and use Dr. Greene's Nervura, the great nerve, brain and blood invigorator. It is pronounced by everybody, dectors as well as the people, to be the best spring medicine in existence, and has taken rank as the greatest and most important medical discovery of modern times. Under the use of this wonderful remedy the weak, tired and nervous feeling disappears; the nerves become strong and steady; the sleep natural and refreshing; the appetite returns, good digestion and regular action of the bowels are established, the kidneys and liver are restored to healthy action. and the vital energies, strength and vigor of the system perfectly built up.

This greatest of all health restorers is purely vegetable and harmless. Druggists sell it, \$1.

Dr. Greene, the successful specialist in curing all forms of nervous and chronic diseases, 35 West Fourteenth street, New York, can be consulted free, personally or by letter. Call or write to him about your case or send for symptom blank to fill out, and a letter fully explaining your disease, giving advice, etc., will be returned

LOUISIANA REPUBLICANS.

The Warmouth Faction Indorses the Administration and Nominates a Ticket.

NEW ORLEANS, Feb. 17 .- The State con-Republican party of Louisiana was called to order shortly after noon to-day, at Oddfellows' Hall, by Gen. A. S. Badger, of the State committee. Only those who wore blue badges were allowed inside the railing. The sergeant-at-arms and his assistants rigidly excluded those whom they believed to be opponents of Governor Warmouth and his faction. There was a large crowd of delegates, both black and white, present, and the main portion of the hall was well filled.

This afternoon resolutions were presented and adopted. They reaffirm their faith in the principles and policy of the Repub-lican party, recognize with satisfaction the proud achievements of the party in the last four years, including the adoption of the McKinley bill, thereby securing to American industries the fullest protection to labor and capital; condemns the baneful practices of the Democratic State administration, whereby the Repub-lican vote is almost totally suppressed; demands free, fair and honest of the State on the overthrow of the Louiselections; congratulates the iana Lottery Company, and credits the Re-publican party with the good work; condemns the action of the majority of the Republican State central committee for attempting to control the party; repudiates the "boodle" convention held under their auspices, and claims that convention was dominated by lottery money; calls attention to Mr. Leonard's record when he was a leader of the White League, and advised the killing of leading Republicans; repudiates the nomination of Dudley Coleman, charging him with having aided in defeating the famous national election law: favors public education, and condems the slaughter of the Italians at the parish

prison. In conclusion it says: Resolved, That the Republicans of Louisiana recognize in that of President Harrison's a most patriotic, careful and painstaking administration. Under his counsel and steady hand the Republican party has retained the con-fidence of the business interests of the country, has sought the fullest protection to American rights throughout the world and assured the country for many years to come peace and prosperity within and respect from abroad. Recognizing the fact that under the present election machinery in this State it is almost impossible to secure a fair election and an honest count whereby we know the electoral vote of this State would be cast for the Republican candiate, yet, as Republicans, we cannot refrain from declaring our hope that the Republican repre-sentatives from the States in which elections are free and fair will renominate President Harrison and re-elect him for a second term.

The following nominations were made: For Governor, John E. Breaux, of Point Coupe; Lieutenant-governor, James C. Weakes, of Ouchita; Attorney-general, James M. Edwards, of Avoyelles; Auditor, Stephen R. Gay, of Iberia; Treasurer, Col. James Lewis, of Orleans; Secretary of State, John E. Starrs, of Orleans; Superintendent of Education, Edward W. Barnett, of Rapides. The two nominees from Orleans are the only colored men on the

A Brilliant Business Man.

During the negotiations which have been pending between the Thomson-Houston and Edison electric companies, the son-inlaw of President Harrison, Mr. McKee, whose baby is far more distinguished than he is. has been brought into contact with the able financiers here who have been managing this deal. Mr. McKee is connected with the Thomson-Houston company. I heard, this morning, one of the ablest business men in the city say that Mr. McKee had re-vealed himself as a business man of very remarkable ability, and that he is sure, in the near future, if he goes on as he has been already developing, to become one of the great men of the business world. He had been underestimated. The flippant newspaper talk which has made of Baby McKee a sort of national pet and gentle jest had almost unconsciously caused the suggestion to arise that Mr. McKee was greater in his capacity of sonin-law than any other. That suggestion no longer exists. He has displayed the keenest business instinct, great prudence and much subtlety and skill in the business dealings which have been progressing of

Crafty Mongolians.

Springfield Republican Out in Seattle, Wash., the other day, ter 'smuggled" Chinamen were arrested and brought to trial. Not one of them proved to the satisfaction of the court that he had a right to remain in this country, and they were all ordered sent back to China. On their way to San Francisco two or three of them were recognized as men who were fully entitled to a residence there, and this is the way one of them explained his arrest and refusal to testify in his own behalf: "I likee go China aile same smuggled China-man. I save \$65. Maybe I come back by and by!" And thus does the crafty Mongolian work Uncle Samuel for his passage

FOR SALE! FAIR GROUNDS!

THE DIRECTORS OF THE

Madison County Fair Association

Have decided to sell their grounds, heretofore used for fair purposes. Sealed bids, for the purchase of the same, will be received at the office of the secretary, to and including Feb. 25, 1892. Terms of sale: Cash in hand, or one-third cash; one-third in one year, and one-third in two years, deferred payments to bear 6 per ceut, interest per annum from date, and secured by mortgage on said real estate. The grounds contain twenty-five acres, more or less, and are situated almost in the center of the city of Anderson, only seven squares from the public square and the business center, and on the principal residence street. The ground is high and rolling, covered with a grove of malive trees, and underlaid with gravel and a never-failing supply of pure water, the growth of the city entirely surrounding it, and the demand for streets through it reader it too valuable for fair ground purposes. It is the most desirable acre propground purposes. It is the most desirable acre property to be obtained in or near the city. Anderson is the leading city in the natural "gas dt" of Indiana, and is known as the "Pittsburg of White river," having more than sixty large manufacturing establishments in full operation; has grown from a county-seat town of 4,000, in 1887, to a city of 16,000 population, and with brighter pros-pects in 1892 than ever before, the city is supplied with all modern conveniences, such as street rail-ways, electric lights, sewerage and water-works, besides the best gas privilege in the world. Capitalists seeking investments that will make speedy and profitable returns, should give this their attention. Visit the city and examine the property or write for full particulars. The Board reserves the right to reject any and all bids. Address JOHN R. BRUNT, Secretary, Box 430, Anderson, Ind.
